

## TECHNICAL DATA SHEET

### **SATCON INTERFIBRE**

#### **GENERAL**

SATCON INTERFIBRE is a thixotropic additive to be mixed into the SATCOFLOR 098 to be able to apply the material to vertical surfaces.

#### **PREPARATION:**

The SATCON INTERFIBRE should be added to the part A and part B of the SATCOFLOR 098 and thoroughly mixed in before the addition of the part C filler is added. After part C is added again mix as usual.

#### **APPLICATION:**

When material is mixed apply to the primed vertical surface by means of trowelling.

#### **PROPERTIES**

|                     |   |                                    |
|---------------------|---|------------------------------------|
| Mixing ratio        | : | 1.5kg's per pack of SATCOFLOR 098. |
| Appearance          | : | Grey fibre powder.                 |
| Packaging           | : | 18kg bag.                          |
| Chemical resistance | : | Details available on request.      |

#### **CAUTION:**

**SKIN CONTACT SHOULD BE AVOIDED. PROTECTIVE CLOTHING, GLOVES AND EYE PROTECTION. (SAFETY GLASSES/GOGGLES SHOULD BE WORN).**

MATERIAL SHOULD NOT BE TAKEN INTERNALLY.
